Giorgio Coppolino is Regional Commercial Director Europe at DSM within the Engineering Plastics group; a global player in (bio-based) polyamides and polyesters serving the electrical and electronics (E&E), automotive, flexible food packaging and consumer goods industries.

He has up to 11 years' experience within DSM y. Before his current role, he was Segment Sales Manager E&E and Specialized Industries Europe, Team Lead of the European connector team and Business Development Manager of the E&E market in Italy.

Prior to these roles, Giorgio Coppolino held several roles within Ashland Distribution (today Nexeo Solution) as Application Development Engineer and Business Development Manager for the Italian market. Prior to the roles he covered in Marketing and Sales, he held a role of scientist at DSM Research related to performance of polymers for different applications (Automotive, E&E, Packaging).

During his career Giorgio Coppolino has built up broad business and technology experience in positions at both Ashland and DSM as well as in Engineering Plastics.

Giorgio Coppolino holds a Master's Degree of Science in Material Engineering obtained in Universities of Messina and Palermo, Italy.
