

Biography

Ludovic Tonnerre

Chief Commercial Officer International Markets

Ludovic Tonnerre took over the role of Chief Commercial Officer International Markets on 1 September 2021, in line with DOMO's ambition to expand geographically in the field of engineered materials (EM), accelerate growth in key regions and redeploy the leading TECHNYL brand worldwide. In his role, he has managed the successful transformation and launch of the TECHNYL© brand to Europe and other international markets.

Ludovic has held other important positions at DOMO since he joined in 2015. In 2016, he stepped into the role of Global Business Unit Manager, Engineering Plastics. As a customer-centric individual devoted to services and quality, he continues to support the business unit and its global customers with tailored solutions. Ludovic's first role in the company was Managing Director of DOMO Engineering Plastics Asia, where he successfully managed and expanded DOMO's Engineering Plastics operations and business in the Far East market.

Before joining DOMO, Ludovic was the General Manager of Juffali PolyOne Masterbatches in Jeddah, Saudi Arabia. In his 22 years at PolyOne, he also held other sales management, operational excellence, business start-up and business management positions in France, Belgium, the United States, China, India and Mexico. Having managed operations, processes and new plants in different cultures for two decades, he has gained a unique blend of commercial and operational skills.

Ludovic graduated from the Ecole Nationale Supérieure de Chimie de Clermont-Ferrand in 1992, holds an executive MBA from SOLVAY Business School in Brussels and is a certified Lean Six Sigma Master Black Belt.

Today, Ludovic is also a member of the DOMO Chemicals Executive Committee.
