MEDIA RELEASE

Clariant increases prices across its Catalysts business portfolio

MUNICH, APRIL 13, 2022

Effective immediately, or as contracts permit, Clariant will implement price increases across its Catalysts portfolio.

The price adjustments are driven by the significant escalation of energy and key raw materials costs, as well as the continued increase of freight and logistics costs.

Clariant's Catalysts business unit is a global developer and producer of catalysts for industrial processes. It has been part of the Catalysis business area of the Clariant Group since the acquisition of the German Süd-Chemie in 2011. Clariant Catalysts has a total of 14 production sites (incl. Joint Ventures), 7 sales offices, and 10 R&D and technical centers around the world. Approximately 2,044 employees serve customers across all regional markets. Aimed at delivering sustainable value to customers, Clariant's catalysts and adsorbents are designed to increase production throughput, lower energy consumption, and reduce hazardous emissions from industrial processes. The broad portfolio also includes products that enable the use of alternative feedstock for chemical and fuel production.
