

Introducing TheBattery Mobile X

Unleashing our 4th Generation of Portable and Sustainable Energy Storage

Key Features

Xtreme energy capacity

Supplying up to 70% more energy (up to 720 kWh) in the same 10ft container.

Xtremely easy to use, anywhere

Plug-and-play design allows for seamless integration and hassle-free deployment.

Xtra secure

Built with advanced safety features and LFP battery technology for enhanced thermal resistance.

Versatile Application

Unlock a multitude of applications, from peak load management to microgrid setups, and power up projects with ease.

Empowering Your Clean Energy Revolution

Environmentally Sustainable

Embrace a greener future with reduced CO2 emissions.

Reliable Power Supply

Enable reliable and clean energy for multiple locations.

Save Costs

Optimise energy usage and unlock long-term cost savings.
