

Bruno Cottone **Managing Director Mondi Duino**

Qualifications

Master's degree in Chemical Engineering from the Polytechnic University of Turin, Italy.

Skills and experience

Began his career in the technical field at Burgo Group, initially taking on various technological roles. Over time, he assumed increasing responsibilities in production and continuous improvement groups, focusing on technical and economic optimisations.

Amassed over 30 years of experience in the industry, gaining significant technical and managerial expertise in complex plants across Italy and Belgium. He managed several sites within the group, progressing to the roles of Production Manager and Mill Manager for five different plants.

Served as a member of the Confindustria Mantova committee, representing the paper sector, and was also a member of the Aticelca Steering Committee.

Joined Mondi in January 2023 following Mondi Group's acquisition of the Duino mill. He currently serves as Managing Director and is a member of the Board of Directors of Mondi Duino.

Current external appointments
