INEOS Styrolution to highlight innovative styrenic solutions at NPE2024 in Orlando, Florida

- Explore one of the most comprehensive resin portfolios in the styrenics industry.
- Engage with our experts to discuss innovative and sustainable solutions across diverse industries.

INEOS Styrolution, the world's leading supplier of styrenic materials, will take part in the largest plastics trade show in the Americas, NPE2024, May 6-10, 2024, at the Orange County Convention Center in Orlando, Florida.

INEOS Styrolution experts will be available to discuss innovative and sustainable styrenic solutions tailored for core industries, including automotive, healthcare, household, electronics, construction, packaging, toys, sports, and leisure.

The company will highlight its developments in plastics circularity; discussing sustainable polymer solutions under their ECO materials portfolio — a family of sustainable styrenics materials made from recycled post-consumer plastic waste as well as materials based on renewable feedstock.

Tom Warren, INEOS Styrolution Vice President Polymers Business Management, Americas, says " INEOS Styrolution is pleased to be attending NPE2024. We look forward to discussing our ongoing commitment to our customers and the industry by continuing to redefine the possibilities of styrenic materials."

Ricardo Cuetos, INEOS Styrolution Vice President Sales Management, Americas, says, "We are eager to meet with our customers during NPE. We look forward to highlighting our industry expertise and partnering with customers to combine our high-quality materials with the high-quality designs of our customers diverse applications."

NPE takes place every three years, bringing together the latest innovations in plastics, materials, and manufacturing solutions in one location. INEOS Styrolution will be located in building level two, Expo Hall, room W202C of the Orange County Convention Center for the duration of the trade event.

ENDS

About INEOS Styrolution

INEOS Styrolution is the world's leading styrenics supplier, with a high-performing portfolio of styrene monomer, polystyrene, ABS and advanced styrenic products. With more than 90 years of innovation in materials science, INEOS Styrolution is focused on customer satisfaction with differentiated solutions that provide a competitive edge as well as investments in technology that enable [closed loop recyclability for styrenics while reducing our carbon emissions](#). INEOS Styrolution applications can be found in many everyday products across multiple industries: including automotive, electronics, household, construction, healthcare, packaging, and toys/sports. Operating 17 production sites in nine countries, the company is a wholly owned subsidiary of INEOS Group Limited and employs approximately 3,000 people. Sales were 4.5 billion euros in 2023.
