### Vincent Colegrave

*Global Head of Digital Transformation at Syensqo*

Vincent Colegrave is the Global Head of Digital Transformation at Syensqo, leading an AI acceleration plan for the company. He guides the digital transformation journeys for the Group's Research & Innovation, Sustainability, and New Business Model teams. Additionally, he serves as the Sustainability Director for Digital & IT.

Vincent has a proven track record in AI and Digital, consistently leveraging partnerships and driving transformation as an intrapreneur through technology. As a former member of the Solar Impulse team that successfully completed the first round-the-world solar flight in 2015–2016, Vincent co-founded the Solar Impulse Foundation to continue promoting the pivotal role of sustainable technologies and clean mobility.

Furthermore, Vincent sits on the Board of the French Tech Corporate Community and is committed to supporting startups, particularly those at the intersection of AI and sustainability. He holds a Master of Science from EMLYON Business School, is married, and has one child.
